

STANLEYBET MALTA LIMITED GENERAL RULES FOR DATA TRANSMISSION CENTRES (CTD) IN EUROPEAN UNION TERRITORY

1. The following rules are effective from **23.11.2015** and will govern all bets accepted by Stanleybet Malta Limited (SM) whether or not the client is aware of them. In the event of a dispute, SM will endeavour to resolve customer complaints directly with customers. If we are unable to resolve the dispute in this way, customers should contact the National Betting Authority.

Telephone number: +357 22601215 *Fax:* +35722605043 *E-mail:* info@nba.com.cy

SM clients should read, comprehend and accept the following rules. The possession of a betting receipt issued by SM implies that the client has acknowledged and accepted the SM Rules. SM Rules must be displayed and made available to the customer at any time in the CTD.

2. The placement of bets from clients under the age of 18 is prohibited.

3. SM offers customers the chance to place bets by means of advertising events and their related priced. Customers who want to exploit the offered chance and place bets on such events, are therein agreeing to a contract between themselves and SM. The contract between the client and SM is formally stipulated when SM – analyzing the placed bet and accepting its conditions – communicates such information to Malta where the bet is processed and registered in SM central server. The stipulation of said contract is promptly communicated to the client through the print of a receipt, displaying all the details of the contract just stipulated with SM.

The printed receipt given to the customer is the only proof of the stipulated contract and it is the customer's strict responsibility to safeguard it. The receipt is anonymous. In case of loss of receipt the customers lose their right to the potential winnings.

It is forbidden for the SM agent to advise or interfere in the customer's decisions or their relationship with SM.

Only SM is allowed to offer events, selections and prices as betting chances and display the potential winnings of any transaction with the customer.

Only transactions that have been processed through the server based in Malta will be recognised as valid by SM.

It is the client's responsibility to check that all the informations printed on the receipt are correct. Should he find any mistake the bet can be voided at client's requests strictly within 5 minutes from the print of said receipt.

4. The normal activities of the CTD can only take place during the established working hours agreed by SM. SM reserves the right to annul any stake placed outside the time of the CTD's working hours, even if the stake has been accepted by the computer and the relevant receipt has been printed.

5. The payout of winnings will be settled only on the presentation of the original bet receipt containing the 6 digit **WINCODE** that authorizes payment on the CTD computer. As far as payment procedures are concerned, SM's notifications, advised from time to time, will apply.

6. SM reserves the right to declare void any bets / selections that result on the SM network transmitted by the CTD after the commencement of the sporting event, even if one second has passed, to which the bet / selection refers, with the exception of Live Betting (Betting in Play)

7. The date and time of the initiation of an event is the date and time that the event actually starts and not the expiry date and time entered into the SM computer. Therefore, if the expiry date and time entered in the SM computer is after (erroneously or for any other reason) the effective date and time of the event and the event is either underway or finished, all selections on the event will be liable to annulment and stakes will be refunded, with the exception of Live Betting (Betting in Play), and events that we have re-opened during an interruption, such as a weather affected tennis match.

8. When a bet is comprised of several selections and one or more of the events referred to is already underway or has been completed at the time the bet is received in the SM network, the selection(s) is valued at an odd of 1.00. The remaining selections are valid and will be regarded as such as long as they meet the minimum requirement of selections to make the bet valid.

Example 1

Stake €100 Request 5
 Anderlecht
 Club Bruges
 PSV Eindhoven
 Man Utd
 Ajax

If Man Utd and Ajax had already played at the moment the bet was accepted by SM, the bet will be treated as a 100 Euro request 3 with Man Utd and Ajax settled at odds of 1.00.

Example 2

Stake €200 Request 3
 Frankfurt
 Pisa
 Oviedo

If Frankfurt had already played at the moment the bet was accepted by SM, the bet would be completely void if a request 2 is not allowed on Pisa and Oviedo.

9. Every bet validated by SM will be recorded in the general archive and in a second archive for security reasons, named "security archive". The odds valid at the time the bet was registered on SM servers are the odds on which the win will be calculated. When calculating the winnings, only the content of the receipt inside SM's headquarters archives will apply. In case of receipts containing different data from that stored in the headquarters archives, SM reserves the right to consider valid the data only contained in its security archives.

10. The minimum number of selections within an event that can be selected, the maximum stakes allowed per combination and any other limitative element are indicated by SM in the Rules, unless otherwise specified.

11. If the CTD receives requests of bets beyond one or more established limits it will be necessary to activate a procedure to request specific authorization for the acceptance of such a bet, according to rules and procedures which SM from time to time will establish.

12. Related contingencies (selections with logical connections) such as Italy to win 2-0 and Italy to win HT and FT are accepted in singles only and, where taken in error for accumulative bets, the stake will be divided equally on singles for each quoted eventuality. An exception to this rule is First or Last Goalscorer / Correct Score double bets (Supergoal) where a special combined price is quoted.

13. Every bet is subject to a maximum win established by SM. The maximum win may be less than the calculation by the computer and the liability is on the client to stake bets accordingly. Please note the following maximum payouts.

SUPERGOAL €250,000

All bets must contain selections exclusively from the Supergoal "family" and must contain at least one pure Supergoal selection (i.e. a selection that predicts the First or Last Goal Scorer and the Correct Score for that match) The Supergoal "family" consists of Supergoal, First / Last Goal Scorer, Striker & Double Striker.

Note, the maximum payout of €250,000 will not apply to system bets unless the winning line(s) within the system bet include at least one "pure supergoal" selection (i.e. a selection that predicts the First or Last Goal Scorer and the Correct Score for that match)

Example

A bet with 3 tennis matches and 1 Formula 1 Classify / Not Classify selections would be subject to a maximum payout of €10,000, the limit for Formula 1 Classify / Not Classify.

All maximum payouts stated within these rules apply to any one customer, or group of customers acting together, backing the same or similarly themed combination of selection(s) even if it is done in a series of bets, at a range of prices, over a number of days using different CTD's. Should we have reason to believe that a number of bets have been placed in this way the total payment of all those bets combined will be limited to one single maximum payout as listed above.

14. In case of printing errors, errors on receipts or palpable errors of data input into SM's computer, SM reserves the right to annul such bets, or in our judgement, to settle such bets at the correct odds even if the discovery of the error occurs after the conclusion of the event. The annulled bet is then reimbursable on the client's request. **Bets are valid in which minor errors appear in the description of the bet, the name of the team, name / surname of the competitor, name of the venue, etc, provided that, despite the error, it may be established beyond all doubt to which team or competitor the bet refers.**

15. SM reserves the right to consider singles or groups of ambiguous bets void even though accepted by the CTD computer and even though the client has received the betting receipt. The annulled bet is then reimbursable on the client's request.

16. Where there is evidence of match, event or race irregularities, SM reserves the right to void or suspend payment on the selection under suspicion pending the outcome of an inquest by that sport's official governing body.

17. Any complaints, complete with the necessary details for an explanation of the complaint, must reach the SM's administration office within 30 days of the completion of the sporting event to which the complaint refers.

18. Reimbursements and bet annulments, not including void matches or selections, can only be requested in the following circumstances:

- There is a computer error in the CTD and the bet did not register.
- The printer does not print out a receipt.
- There is an error in the input of selections of the bet or the stake of the bet.

If more than 5 minutes have elapsed after the bet has been placed the request for annulment must be received by SM's administration office, by email or fax, before the first event on the bet has started. Notification by word of mouth or telephone will be ignored.

Any stake exceeding the typical bookmakers offer parameters can be voided at SM discretion.

19. Situations not covered by these rules will from time to time be published and communicated by SM

20. The following Rules are drafted in different languages as a courtesy to our customers. Should any discrepancy arise between different language versions the English version will always be deemed valid.

SPECIAL RULES - GENERAL SPECIFICATIONS

Dead Heat Rules

In the case of an event which concludes in equal merits with more than one winner where only one winner was considered, *DEAD HEAT* rules will apply. A dead heat is a tied result in which two or more contestants share a finishing position. A dead heated selection is deemed to be half winner, half loser and is thus settled to half the odds at full stake. In a three way dead heat, the selection is deemed one third winner, two-thirds loser and is settled to be one third of the odds at the full stake.

Amended Results

The results are intended to mean those on the sports ground or podium. Subsequent inquiries by the relevant sports body / bodies will be considered for settling purposes, but any inquiry the following day or later will not be considered (see *Motor Racing* for exception).

Example

On Stage 6 of the 1999 Tour De France cycling. Steels finished first with Cipollini in second. An immediate inquiry was called and Steels lost first place for barging, therefore Cipollini was awarded first place, and for settling purposes Cipollini was the winner. If the inquiry had been initiated the following day, Steels would have been considered the winner for settling purposes. Therefore, in respect of inquiries, they must be instigated on by the relevant authorities within the same day.

Venue Changes

In the event of a change of venue not published or made known to SM at the time match odds were issued, with bets being accepted on the issued odds, bets will stand provided the venue is not switched to the opponents' ground, in which case selections for that match will be annulled and the client reimbursed on request. In the case of a bet consisting of that event and others, then the part of the bet with the venue change is settled at odds of 1.00.

Specific Tournament Rules

When tournaments or mini-tournaments are played in one country, matches are drawn by the Official Tournament Body, there will be occasions when the tournament host is drawn as the away team and matches will be displayed as drawn by the official tournament body. This can be the case in a variety of sports.

Example 1: World Volleyball Champions are played in Zagreb. Match is drawn Germany v Croatia the match will be displayed as: Germany v Croatia **AND NOT** Croatia v Germany.

Example 2: Brazil World Cup match is drawn as Mexico v Brazil, the match will be displayed as: Mexico v Brazil **AND NOT** Brazil v Mexico

Disputes

In the case of a dispute on the outcome or result of an event, where applicable, statistics provided by our 'Live Betting' service provider will be used to settle wagers, unless there is indisputable evidence that the service provider statistics are incorrect. Where service provider stats are not provided, we will use video evidence to support bet settlement. If for any reason video evidence is unavailable, we will use independent evidence and settle on the majority independent view. When this is not clear, where applicable, the official competition Website will take priority.

Ante Post/Outright Betting

Prices for unquoted players/teams/selections will always be available on request.

Chart Based Bets

Any prices offered using charts, for example correct score or score / not to score, the prices displayed on the Online betting offer will supersede any prices displayed on standard charts. Palpable errors excepted.

SPECIAL SPORTS RULES

Special rules cover all the data regarding sporting events which have a typical structure of a challenge between two teams (team 1 and team 2) which give place to a final result defined as the result at the end of regular time of play which may be expressed in two numbers, the first representing the score of team one, the second representing the score of team two. Team one is indicated on the left and is always considered to be the home team. Team two is indicated on the right and is always considered to be the away team. Also, when a game is played at a neutral venue, the team on the left is considered the home side and the team on the right is considered the away side. If a draw is a price option, it is in the centre under category X.

In the case of an incorrectly listed match or fixture in any sport, where the match is inadvertently offered by SM and it is not scheduled to take place, all bets taken will be void and settled at odds of 1.00.

Example: A tennis match is incorrectly offered by SM as Hewitt v. Federer when it should have been entered as Roddick v. Federer. Such games are considered void win or lose for the correctly listed player.

In the case of any non football matches, for example Basketball or Ice Hockey, full regular game time must be completed with any injury time officials deem necessary to add for the result to be valid, anything less than full regular time and the result is void and settled at odds of 1.00.

For all sports event, if a participant withdraws or is excluded before the tournament begins – and the above-mentioned rule “Withdrawals – Group Betting” is not deemed applicable - bets on that selection to win the *tournament outright* will be settled as void. Palpable errors excluded.

Non-sporting events, such as Oscars, Miss World, Eurovision Song Contest, these bets will be accepted on a *singles only* basis and cannot be combined with any other event. Unless a special combined price is offered.

Different sports can be combined to make up a minimum request 3 when required.

Example: A request 3 on two Ice Hockey games and 1 football (min 3) - Jokerit, TPS & Osters - is acceptable.

AMERICAN FOOTBALL

The result is intended by the score at the end of the game *INCLUDING* any overtime, except for Halftime/ Full-time bets where the result at the end of regular time only counts. In the case of abandoned or oned matches bets are void unless played the following day, except for bets, the outcome of which has already been determined at the time of abandonment E.G. First Touchdown Scorer.

ATHLETICS

All in compete or not. Athletes awarded Gold, Silver and Bronze medals will be deemed 1st, 2nd, and 3rd respectively for betting purposes. In the absence of a medals ceremony, bets will be settled on the official I.A.A.F. result (or similar governing body) immediately following the race.

AUSTRALIAN RULES FOOTBALL

All Australian Rules bets are settled on 80 minutes play unless otherwise stated. If the game results in a draw, then stakes will be refunded unless a price is offered for the draw. Bets will be settled on official AFL result only.

If a match is abandoned before 80 mins are played, all bets on that match are void, except for those markets which have been unconditionally determined.

If a match is postponed and rescheduled to take place the next day, your bet on the match will stand.

If the match is no longer playing at the venue advertised, your bet will still stand. This applies as long as the venue has not been changed to the opponent's ground.

BADMINTON

A match is deemed to have started with the first serve of the match. If the required number of games to win a match are not completed or a player retires prior or during a match, all bets placed on the match result will be void and settled at odds of 1.00.

BASEBALL

The result is intended by the score at the end of the game *INCLUDING* any overtime. If two teams are scheduled to play twice, back to back, on any given day, the odds issued will relate to the first game only and the result of the first game will be the score used for settlement purposes. The score for the second game will be disregarded.

The result of a game is official after 5 innings of play unless the home team is leading after 4.5 innings. If a game is 'called' or suspended, the winner is determined by the score after the last full inning (unless the home team scores to tie, or takes the lead in the bottom half of the inning, in which case the winner is determined by the score at the time the game is called). In case of a draw result the event will be deemed as void for settlement purposes. In the case of postponed abandoned or cancelled matches, an unplayed or postponed event will be void for settlement purposes unless played the following day.

BASKETBALL

In the case of Basketball, for 1X2 prices, the result is intended by the score at the end of regular time, WITHOUT any overtime, but the intended result for Handicap, Under / Over, Winning Margin, Money line and Odd / Even is the final result at the end of the game *INCLUDING* any overtime. If a match is abandoned before regulation time is played, all bets on that match are void, except for those markets which have been unconditionally determined.

If a match is postponed and rescheduled to take place the next day, your bet on the match will stand.

If the match is no longer playing at the venue advertised, your bet will still stand. This applies as long as the venue has not been changed to the opponent's ground.

BEACH VOLLEYBALL

Where applicable the podium presentation will determine the settlement of bets. Subsequent disqualifications and/or appeals will not affect bets.

In the event of a match starting but not being completed then all bets will be void, unless the specific market outcome is already determined, or unless there is no conceivable way the set and/or match could be played to its natural conclusion without unconditionally determining the result of a specific market.

BOWLS

Outright betting

All in, complete or not.

Match Betting

In the event of a match starting but not being completed the player progressing to the next round will be deemed the winner. In the event of a walkover (e.g. one of the players withdraws before a match) all bets on that match will be void.

Set Betting

The full number of sets required to win the match must be completed. If the match is awarded to a player before the full number of sets are completed, set betting will be void.

Abandoned or Postponed matches

If a match is abandoned or postponed and rescheduled to take place the next day, your bet on that match will stand. If the match does not take the next day your bet will be void.

COMBAT SPORTS (BOXING & MIXED MARTIAL ARTS)

Postponed Fights: Bets stand for 30 days. If a fighter is replaced by a substitute, all bets relating to that fight will be void.

Round by Round Betting: If either fighter fails to answer the bell for the next round, his opponent will be deemed to have won the fight in the previous round. If for any reason a points decision is made before the full number of rounds are completed, bets will be settled on the round in which the fight was stopped. Bets which nominate 'to win on points' will only be deemed winners if the full number of rounds are completed. A price will be offered for the draw and in the event of that occurring bets on either fighter to win will be losers.

CRICKET

Match Betting: Bets will be settled on the official result. If a match is officially declared a 'no result', all bets on that match will be void. If a match is affected by external factors (such as bad weather), bets are settled based on the official competition rule (this includes matches affected by a mathematical calculation such as the Duckworth-Lewis method (DL) or the Jayadevan system (VJD)).

If a Test match ends in a tie, (match ends with both teams scoring exactly the same number of runs), dead heat rules will apply and all bets on the draw will be deemed losers. For one day matches (domestic and international), if a price isn't quoted for a tie and the official competition rules do not declare a winner, then dead heat rules apply.

For matches in knockout tournaments, the team progressing to the next round will be deemed the winner, including if concluded by a bowl-out. If a match is abandoned due to outside interference, all bets on that match will be void.

Top Runscorer: Bets for a particular game apply to the first innings only. If a batsman retires and does not resume his innings, his score will stand. Bets placed on any player not in the starting eleven will be void. Bets placed on a player in the starting eleven stand, whether they bat or not. If two players tie as top batsman, dead heat rules apply. All bets relating to one innings will be void if fewer than 20 overs (10 overs in the case of 20 / 20 matches) are completed because of external factors (such as bad weather). This applies unless a team is all out, or wins the match in fewer than half of the planned overs.

Series Betting: If a series is postponed for any reason before the scheduled number of games have taken place, then the team that is ahead at the time will be deemed the winner for settlement purposes.

This rule also applies for the settlement of top series run scorer and top series wicket taker bets. If a series ends in a tie and no price for the tie is quoted dead heat rules will apply. Bets on the series correct score will be settled as void if the designated number of matches are not completed.

Series top batsman or top bowler markets are settled on an 'all in play or not' basis.

CURLING

Outright Betting - All-in, compete or not.

Match Betting - All matches will be settled on the final score. For betting purposes extra ends will count.

Fantasy Football (FantaStanley): All official results refer to the official Magic Points published on “La Gazzetta dello Sport”, section “Magic +3”.

1. Predict which player in the specified head to head will score more “Magic Points” (after bonus and minus allocations)

The “Bonus” points are:

- +3pt per every goal scored (player bets only);
- +3pt per every penalty saved (player bets only);
- +1pt per every assist. “Assist” is defined as an intended pass from a player which creates a goal opportunity and puts a teammate in the position of scoring. The “assist” bonus is only awarded if a goal is scored as a consequence and that the scorer is not forced to skip past an opponent (gk excluded). (player bets only).

The “Minus” points are:

- -3pt per every penalty missed (player bets only);
- -2pt per every own goal scored (player bets only);
- -1pt per every red card (player bets only);
- -1pt per every goal conceded (player bets only);
- -0,5pt per every yellow card (player bets only).

4. In the occurrence that a player scores 0 Magic Points, the selection must be considered void.

In the occurrence that the two selected players reach the same total Magic Points, the winner will be the player who spent more time on the pitch (injury time excluded), and ultimately if both played the same amount of minutes the selection will be considered void.

In the occurrence that a game is suspended, postponed or played with an extraordinary delay or anticipation (over 3 days to the scheduled kick-off date), all bets concerning the players will be considered void.

Virtual Matches

“Virtual matches” are imaginary matches between teams not actually playing against each other. Results are determined on one team scoring more goals in their match against their actual opponents than the team they are “virtually” matched against manage to score against their actual opponents.

Example

England are playing against Slovenia and Germany are playing against South Africa but odds are offered in the virtual match of England v Germany. If England beat Slovenia 3-1 and Germany beat South Africa 2-0 then the score for the England v Germany “virtual” game would be England 3 Germany 2.

If a match is abandoned before the completion of the stated number of minutes of official full regular time bets will be void, except for those of which the outcome has already been determined at the time of abandonment. Extra time does not count.

Under/Over 2.5 – odds relate to goals scored by both teams in their respective matches, so in the example above there would be 5 goals, meaning over 2.5 is the winning selection.

SPECIAL 'LIVE BETTING' RULES

All Sports

Where applicable, statistics provided by our 'Live Betting' service provider will be used to settle wagers, unless there is indisputable evidence that the service provider statistics are incorrect. Where service provider stats are not provided, we will use video evidence to support bet settlement. If for any reason video evidence is unavailable, we will use independent evidence and settle on the majority independent view. When this is not clear, where applicable, the official competition Website will take priority. Any disputes must be submitted before 30 days have elapsed after the event has finished.

If a game is stopped (after start), for any reason, and resumed within the same day all live bets will stand; if not resumed within the same day all undetermined live bets will be deemed void.

If a game never starts, for any reason, and it is not played within the same day all live bets will be voided.

A yellow card counts as 10 points, a red card as 25 points. Two yellow cards leading to an automatic red will score as one yellow and one red card i.e.35 points. Any card shown after the full time whistle has been blown will be disregarded. Wrongly issued cards that are rescinded on the field of play will be disregarded.

Example: Totti is shown a red card which is rescinded and is instead shown a yellow card – Only the yellow card counts.

Cards will only count which are shown to players after they take the pitch for the first time and before they leave the pitch for the final time. Cards shown to non-players (e.g. managers or substitutes who play no part in the game) do not count towards the total.

Example: Roma v Juventus, Card line is 65.5, 2 Roma players receive yellow cards, 1 Juve player receives a yellow card while one other receives two yellow cards resulting in a red. There are therefore a total of 65 card points in the match - if you bet under 65.5 your bet is a winner, otherwise your stake is lost.

First Half Only Under / Over Card Points: Bets are settled on the total number of card points in the first half only, using the same scoring system as outlined above. The card line is liable to change throughout the half and settlement will be determined by the line at the time the bet was placed.
